

AFFIDAVIT

The undersigned, being duly cautioned and sworn, deposes and states as follows:

1. My name is Charles V. Wetli, M.D. I am a physician and the Chief Medical Examiner of Suffolk County, located at Hauppauge, New York. I am also a Clinical Professor of Pathology at the State University of New York at Stony Brook, New York. I have been board certified in Anatomic and Clinical Pathology since 1974, and in Forensic Pathology since 1979. Attached is a true and accurate copy of my Curriculum Vitae, updated as of July 3, 2002.
2. I have personally performed nearly 7000 autopsies and have supervised and reviewed thousands more. Numerous cases involved the evaluation of asphyxia, strangulation and choke holds.
3. I was consulted by the attorney for R. Blaine Jorg to review the autopsy of Roger Owensby, Jr., to determine the cause of death of Mr. Owensby. I have reviewed the autopsy report of Roger Owensby, Jr., the microscopic slides from the autopsy, the autopsy photographs, the University Hospital medical report, the EMS record, various photographs, including photographs of Ariel St. Clair and George Weaver with their arms around the neck of a police officer, the property report of the evidence recovered concerning Mr. Owensby, the trial testimony of Dr. Daniel L. Schultz, who performed the autopsy of Roger Owensby, Jr., and statements of witnesses Brian Menefee, Ariel St. Clair, George Weaver, and Police Officer Robert Heiland. Although other evidentiary materials are available, I am able to render an opinion on the cause of death of Roger Owensby, Jr., based on the above described items, all of which are hereby incorporated by reference. All of the opinions that I describe in this affidavit are based on my personal knowledge, my review of the evidentiary materials described above, based on my education, training and experience, and I hold all of my opinions to a reasonable degree of medical certainty.
4. Roger Owensby, Jr., did not die from any type of asphyxia, including a mechanical asphyxia, or a choke hold. Roger Owensby, Jr., died a sudden cardiac death - i.e. an

arrhythmia, which follows a period of intense exertion, from the effects of epinephrine (adrenaline) and nor-epinephrine. Further, it has been shown that many such individuals also experience profound metabolic acidosis, which may also lead to a sudden cessation of cardiac function.

5. The following are the basis for my opinion that Roger Owensby, Jr., died from Sudden Cardiac Death:

- The death occurred suddenly;
- There is a chest wall injury, but no evidence that there was chest compression with no ability to breath for 3-5 minutes, which would be necessary to cause an asphyxia;
- There is absolutely no evidence of neck injury;
- It is inconceivable that a forearm bar hold as demonstrated in the photographs of St. Clair and/or Weaver would not leave any injury in the neck of a non-sedated, struggling man with the habitus of Mr. Owensby;
- Sudden loss of vital signs after an intense period of physical exertion is typical for a cardiac arrhythmia;
- Additionally, the petechiae, which are pinpoint hemorrhages in the white portion of the eye, are not adequately depicted in the autopsy photographs, casting doubt on their actual existence;
- However, if you assume that there were petechiae in the right eye, but not depicted in the photograph of the left eye, as testified to by Dr. Schultz, it would be evidence of a localized injury to the right eye like you would receive from an irritant or dirt, not from an asphyxia. If Mr. Owensby had been asphyxiated, there would have been bilateral petechiae, or equal petechiae in both eyes, which would have been easily observed and photographed;
- The bruises to Mr. Owensby's back are consistent with blows from a fist, not from compression with knees as testified to by Dr. Schultz; and

- Witnesses indicated Mr. Owensby walked from the arrest scene to the police car, and then had a sudden loss of vital signs while alone in the police car, which means that Roger Owensby, Jr., could not have died during his arrest, but died from a sudden cardiac event in the police car.

FURTHER AFFIANT SAYETH NAUGHT.

Charles V. Wetli, M.D.

Personally appearing before me this 13th day of September, 2002, was Charles V. Wetli, M.D., known to me, who swore that the foregoing was true to the best of his knowledge and belief.

Mr. Neil F. Freund
c/o Freund, Freeze and Arnold
One Dayton Centre
1 South Main Street
Suite 1800
Dayton, Ohio 45402-2017

RE: Owensby v. City of Cincinnati, et al

Dear Mr. Freund:

Regarding the death of Roger D. Owensby, the following materials have been reviewed:

- Death certificate
- Toxicology report
- Hospital emergency department records
- EMS records
- Autopsy report and photographs
- Histologic sections
- Photographs of police officer and shirt; witness demonstration
- Property report
- Statements of Police Officer Robert Heiland, Security Guard Brian Menefee, Ariel St. Clair (11-08 and 12-00), George Weaver
- Report of Cyril Wecht (10 September 2002)
- Trial testimony (excerpts) of Police Officer Hunter, Dr. Schultz, Dr. Parrott
- Deposition transcripts of Dr. Schultz, EMT Coburn
- Grand jury testimony of Dr. Parrott

Very briefly, Mr. Owensby was involved in an intense struggle with several police officers during an attempted arrest. During the struggle, it was alleged that he was struck by fists, choked, sprayed with pepper extract, and that his chest was compressed. After being handcuffed, he was placed in the back of a police car. There are conflicting statements as to whether he walked to the police car or not. Shortly after being placed in the police car he was found to be without vital signs, and resuscitative efforts were to no avail.

The postmortem examination revealed only some abrasions and deep contusions to the scapular area bilaterally. Petechiae of the eyes were described as being present in the

right and scattered in the left, and associated with "scleral hemorrhage and conjunctival hemorrhage." In later deposition testimony the petechiae were described as "florid." No neck injury was identified, and there were no rib fractures. The 395 gram heart (predicted weight for height is 321 grams) had hypertrophy of both left and right ventricular walls (1.8 and 0.4 cm. thickness respectively). Toxicological analysis was negative except for cannabinoids. A hemoglobin electrophoresis was not done, and postmortem chemistry studies were not done. Death was attributed to "mechanical asphyxia" from compression of the neck and/or chest.

It should be noted that the photographs do not depict scattered petechiae nor "florid" petechiae of the eyes. At best there may be two petechiae of the sclera of the right eye. Also, it should be noted that if the deep contusions of the back were from a knee grinding into and compressing the back, one would expect to see rather obvious abrasions from the friction of the clothing. Deep contusions such as depicted here more likely result from a forceful impact which does not result in abrasions and does not necessarily cause externally evident bruising (this is sometimes seen at impact points on the legs of pedestrians struck by automobiles).

My opinion, to a degree of reasonable medical certainty, as to the cause of death of Roger Owensby remains the same as stated in my affidavit dated 13 September 2002 (nos. 4 & 5):

4. Roger Owensby, Jr., did not die from any type of asphyxia, including a mechanical asphyxia, or a choke hold. Roger Owensby, Jr., died a sudden cardiac death – i.e. an arrhythmia, which follows a period of intense exertion, from the effects of epinephrine (adrenaline) and nor-epinephrine. Further, it has been shown that many such individuals also experience profound metabolic acidosis, which may also lead to a sudden cessation of cardiac function.
5. The following are the basis for my opinion that Roger Owensby, Jr., died from Sudden Cardiac Death:
 - The death occurred suddenly;
 - There is a chest wall injury, but no evidence that there was chest compression with no ability to breath for 3-5 minutes, which would be necessary to cause an asphyxia;
 - There is absolutely no evidence of neck injury;
 - It is inconceivable that a forearm bar hold as demonstrated in the photographs of St. Clair and/or Weaver would not leave any injury in the neck of a non-sedated, struggling man with the habitus of Mr. Owensby;
 - Sudden loss of vital signs after an intense period of physical exertion is typical for a cardiac arrhythmia;
 - Additionally, the petechiae, which are pinpoint hemorrhages in the white portion of the eye, are not adequately depicted in the autopsy reports, casting doubt on their actual existence;

- However, if you assume that there were petechiae in the right eye, but not depicted in the photograph of the left eye, as testified to by Dr. Schultz, it would be evidence of localized injury to the right eye like you would receive from an irritant or dirt, not from an asphyxia. If Mr. Owensby had been asphyxiated, there would have been bilateral petechiae, or equal petechiae in both eyes, which would have been easily observed and photographed;
- The bruises to Mr. Owensby's back are consistent with blows from a fist, not from compression with knees as testified to by Dr. Schultz; and
- Witnesses indicated Mr. Owensby walked from the arrest scene to the police car, and then had a sudden loss of vital signs while alone in the police car, which means that Roger Owensby, Jr., could not have died during his arrest, but died from a sudden cardiac event in the police car.

It should also be noted that there was reportedly some vomitus at the arrest scene and at least some witnesses indicated Mr. Owensby was actually dragged to the police car and appeared unconscious. Terminal vomiting is often seen with sudden cardiac death, particularly when there is abundant gastric content (Mr. Owensby had 300 ml material in his stomach at autopsy). Hence, it is also possible he could have had his cardiac arrhythmia at the arrest scene (i.e. before being placed in the police car). However, what is important is that there is no physical or historical evidence to support a death from mechanical asphyxia. The sudden loss of vital signs during the terminal event of his life is typical for and characteristic of sudden cardiac death, particularly in the presence of an enlarged heart.

These opinions are held to a degree of reasonable medical certainty.

Yours truly,

Charles V. Wetli, M.D.
Chief Medical Examiner

CVW/pam

CURRICULUM VITAE

1 January 2004

CHARLES V. WETLI, M.D.

**Chief Medical Examiner
SUFFOLK COUNTY, NEW YORK**

**Clinical Professor of Pathology
SUNY at STONY BROOK, NEW YORK**

Hauppauge, NY 11787-4311**

**CURRICULUM VITAE
CHARLES V. WETLI, M.D.**

I. GENERAL:

Full name: Wetli, Charles Victor
Place of birth: Green Bay, Wisconsin
Date of birth: 27 August 1943

II. EDUCATION AND TRAINING:

University:

University of Notre Dame, South Bend, Indiana
Pre-professional studies (concentration in chemistry)
Degree - Bachelor of Science (6 June 1965)

Medical School:

St. Louis University School of Medicine, St. Louis, Missouri
September 1965 - June 1969
Degree - M.D., 31 May 1969

Internship:

Jackson Memorial Hospital and University of Miami School of Medicine, Miami, Florida, June 1969 - June 1970, Anatomic and Clinical Pathology

Residency:

Jackson Memorial Hospital, University of Miami School of Medicine and
Veteran's Administration Hospital, Miami, Florida, June 1970 - June 1973

Dade County Medical Examiner Department and University of Miami School of
Medicine September 1977 - September 1978, Forensic Pathology

**CURRICULUM VITAE
CHARLES V. WETLI, M.D.**

Government and Administration/Management:

Forensic Administration - St. Louis University School of Medicine, Department of Pathology (Division of Forensic and Environmental Pathology) July 28-31, 1986, St. Louis, MO

Harvard Program for Senior Executives in State and Local Government, John F. Kennedy School of Government, Harvard University, Cambridge, MA, June 12 - July 1, 1988; Alumni Refresher Course (Harvard): 1989, 1990, 1991, 1992, 1993

III. CERTIFICATION AND LICENSURE:

National Board of Medical Examiners No. 107806, 1 July 1970

American Board of Pathology May 1974, Anatomic and Clinical Pathology

American Board of Pathology, May 1979, Forensic Pathology

State Board of Medical Examiners of the State of Florida, No. 16616, 4 September 1970 (inactive status as of January 1995)

Medical Licensure, State of Missouri (lapsed)

New York State (25 January 1995 No. 198336)

IV. MILITARY EXPERIENCE:

Reserve Commission (Berry Plan) U.S. Army, November 21, 1969, active duty September 1973 to August 1976,

Rank: Major

Station: U.S. Army Medical Laboratory Pacific (Japan)

Function: Chief of Pathology Unit Emergency Room Coverage

Awards: Certificate of Appreciation, Far East U.N. Command (April 1975)

Army Commendation Medal, August 1976

**CURRICULUM VITAE
CHARLES V. WETLI, M.D.**

V. APPOINTMENTS:

Associate Instructor of Otolaryngology (part-time), University of Miami School of Medicine, 1 August 1970 - 30 June 1973

Associate Medical Examiner, Dade County Medical Examiner Department, Miami, Florida, 1 July 1973 - 31 August 1973

Staff Pathologist, Daniel Seckinger, M.D. & Associates, P.A., Staff, Appointment to Cedars of Lebanon Health Care Center, Miami, Florida, September 1976 - September 1977

Director, Physician's Reference Laboratory, Miami, Florida, September 1976, September 1977

Associate Medical Examiner, Dade County Medical Examiner Department, Miami, Florida, September 1977 - October 1980

Deputy Chief Medical Examiner, Dade County Medical Examiner Department Miami, Florida, November 1980 - January 1995

Assistant Professor of Clinical Pathology, University of Miami School of Medicine Department of Pathology, Miami, Florida, September 1977 - June 1982

Clinical Associate Professor of Pathology, Department of Pathology, University of Miami School of Medicine, June 1982 - January 1995

Staff Instructor, Drug Enforcement Administration, 1980 - 1993

Chief Medical Examiner, Suffolk County, New York, February 1995 - present

Note: Accredited by National Association of Medical Examiners (NAME), April 2000, American Board Forensic Toxicology, April 1999, National Society of Crime Laboratory Directors (ASCLD/LAB), March 1997

Note: National Association of Counties (NaCo) Award for Mass Disaster Preparedness Program, May 2000 (Best in Category) and semifinalist in Innovations in American Government competition (JFK School of Government, Harvard University).

V. APPOINTMENTS (Continued):

**CURRICULUM VITAE
CHARLES V. WETLI, M.D.**

Lecturer in Forensic Pathology, State University of New York at Stony
Brook, March 23, 1995 - 30 April 1996

Clinical Professor of Pathology, State University of New York at Stony Brook, 1
May 1996 - present (local campus title: Professor of Clinical Pathology)

Regional Trauma Oversight Committee, 1996 – present

Trauma Peer Death Review Committee, 1999 - present

Note: NYS Trauma Physician of Distinction, 1999, Presented by NYS
Trauma Committee, American Trauma Society, NY Division

VI. JOURNAL MANUSCRIPT REVIEWER:

Journal of the American Medical Association, January 1983 - Present

American Journal Forensic Medicine & Pathology, January 1992 - Present

American Society Clinical Pathology Check Sample (see addendum)

Annals Internal Medicine (Occasional, since approximately 1990)

American Journal of Clinical Pathology (Dec. 1996 - Present)

VII. PROFESSIONAL AFFILIATIONS (Currently Active):

1. AMERICAN SOCIETY OF CLINICAL PATHOLOGISTS, Fellow No. F094661 -
Elected October 1972

ASCP ACTIVITIES: SEE ADDENDUM

2. AMERICAN ACADEMY of FORENSIC SCIENCES (FELLOW), February 1979

Discipline/Assessment Task Force Committee Member for Path/Bio Section,
November 1991 - Feb. 1995

VII. PROFESSIONAL AFFILIATIONS (Currently Active) (Continued):

3. NATIONAL ASSOCIATION of MEDICAL EXAMINERS, August 1980

Ad Hoc Committee for Guidelines for Use of Pathology Assistants in
Medical Examiner Offices. (11/95 - 11/96).

Ad-Hoc Committee on Current Issues Response (9/97 - 2/98)

**CURRICULUM VITAE
CHARLES V. WETLI, M.D.**

Ad-Hoc Committee on NTSB-ME Linkage (9/97)

Ad-Hoc Committee on Cocaine (10/99 – 01/01)

Ad-Hoc Committee for Developing Guidelines for the Relationship
Between Tissue Procurement Agencies and Medical Examiners/
Coroners (10/01 – present)

Accreditation Inspector for Bergen County, NJ, Medical Examiner
Office (06-14-02).

4. MEDICAL SOCIETY of the STATE of NEW YORK. April 1995 - present.
Forensic Committee, 1995 - present
5. SUFFOLK COUNTY MEDICAL SOCIETY 1995 - present
6. NYS ASSOCIATION of COUNTY CORONERS and MEDICAL EXAMINERS. 1997 -
present
7. NATIONAL DISASTER MANAGEMENT SYSTEM (D-MORT TEAM, REGION II),
3/11/98 - present)
8. COLLEGE OF AMERICAN PATHOLOGISTS (FELLOW), May 2000 (Member No.
0073905)
9. AMERICAN RED CROSS NATIONAL MEDICAL EXAMINER/CORONER ADVISORY
COMMITTEE, 1998 - present
10. BRAIN INJURY ASSOCIATION OF NEW YORK STATE PROFESSIONAL ADVISORY
BOARD, November 2001 – present
11. NEW YORK ORGAN DONOR NETWORK MEDICAL ADVISORY BOARD; CHAIRMAN
TISSUE SUBCOMMITTEE, January 2002 - present

VIII. PROFESSIONAL AFFILIATIONS (discontinued):

1. College of American Pathologists, Fellow No. 073905 - Elected May 1973 -
December 1978 (resigned)
2. The American Board of Pathology, Forensic Pathology Test Committee, 1985-
1989 (five year maximum tenure)

**CURRICULUM VITAE
CHARLES V. WETLI, M.D.**

3. Florida Medical Examiners Commission, 1985 Committee on Standards & Training (ad hoc), 1989 Committee on Operations & Procedures (ad hoc)
4. South Miami Medical Forum, July 1984 - January 1995
5. Dade County Association of Chiefs of Police, May 1989 - January 1995
6. American Society for Public Administration, Jan. 1989 - 1995
7. National College of District Attorneys - (Instructor) Lecturer of Merit Award, June 1990

ADDENDUM I

AMERICAN SOCIETY OF CLINICAL PATHOLOGISTS ACTIVITIES

Forensic Council of Commission on Continuing Education 1982-1988
(Chairman, 1986-1988); ex officio 1989-2001
Forensic Resource Council, January 2002 - present

Check Sample: Editor for Forensic Council, 1985 - present

Associate Editor for Check Sample Program &
Editor-in-Chief of Anatomic Pathology, 1990-1993

Executive Committee, (Editorial Group) April 1993 - present

Abstract Review Subcommittee for Anatomic Pathology: May 1988 -
present

American Journal of Clinical Pathology Editorial Board (Dec. 1996 -
present)

Check-Path Program Forensic Expert Review Panel 1992 - present

Resident In-Service Examination ("RISE") National Contributing Editor
for Forensic Pathology (test committee) June 1998 - present

George F. Stevenson Society, Nov. 2000 - present

ASCP Awards:

Commission of Continuing Education Medal, November 1988

Distinguished Service Award, May 1989

**CURRICULUM VITAE
CHARLES V. WETLI, M.D.**

AMERICAN SOCIETY OF CLINICAL PATHOLOGISTS ACTIVITIES (cont'd)

Teleconferences:

Drug Overdose Deaths June and October, 1985; September 1988
Forensic Pathology for the Hospital Pathologist - Part I May 1989
Anatomy of Firearms Injuries (Dr. Geetha Ann Natarajan,
Co-director): October 1995

ASCP Workshops:

- #4430: **Man & Machine:** Evaluating the Auto Accident Victim (Co-director with Dr. James Benz), October 1982, October 1983; Revised, with Dr. Don Reay as Co-director: November 1985, April 1987, March 1993
- #4436: **Forensic Pathology for the Hospital Pathologist** (with Dr. Roger Mittleman as Co-director), October 1984, April 1985, November 1985, April 1986, March 1987, October 1987, April 1988, March 1989 October 1989, March 1991, April 1992, September 1995
- #4443: **Pathology of Drug Abuse** (with Dr. Allen Jones, Co-director) October 1988, October 1989, October 1990; (with Dr. Geetha Natarajan, Co-director), September 1995

AMERICAN SOCIETY OF CLINICAL PATHOLOGISTS ACTIVITIES (cont'd)

**CURRICULUM VITAE
CHARLES V. WETLI, M.D.**

- #A-135: **The Art of Courtroom Testimony**, October 1989 (Mini-workshop)
- #4447: **The Art of Courtroom Testimony**, October 1990, March 1991, October 1992, October 1993, October 1994, October 1996
- #A-152: **Euthanasia and Physician-Assisted Suicide** (Mini-workshop) October 1994
- #4454: **Anatomy of Firearms Injuries** (with Dr. Geetha Natarajan, Co-director) April 1995, April 1996, April 1997
- #A-166: **Death Certification**, October 1996, September 1997, October 2000 (Mini- Workshop)
- #A-190 **Forensic Pathology Chat Room**, October 2000
- #R-233 **Forensic Pathology Round Table (Lawyers, Courts & Judges)**, October 2000

**ASCP DINNER SEMINARS PRESENTED
(Workshop #4410)**

DINNER SEMINARS (1982 - Present; Director 1986-1988)

- 1982: Spontaneous Human Combustion;
Fungal Cerebritis in IV Cocaine Abuse
- 1983: The Body Packer Syndrome;
Graves, Skulls, and Blue Tattoos
(Afro-Caribbean Religions).
- 1984: Two Point Contact; (cylinder flare in GSW homicide)
Psychotic Heat (excited delirium and cocaine).
- 1985: Double Impact; (in automobile crash)
Silence Please: Murder in Progress (firearms silencers)
Lust Murder

DINNER SEMINARS (Cont'd.)

CURRICULUM VITAE
CHARLES V. WETLI, M.D.

- 1986: Potential Significance of the Hexagram;
Sudden Death in Crisis Intervention;
Delayed Symptoms (Amoxapine Overdose);
Blood, Alcohol and Trauma
- 1987: Trial by Press;
Hyperacute Cerebral Edema in an Adult
- 1988: Blackpowder Backfire; (breach plug fatality)
Sudden Death in Mental Illness (Neuroleptic Malignant Syndrome)
- 1989: The Explosion (deflagration vs bomb)
A Fatal Breeze (CO poisoning).
- 1990: An Epitaph of Adolfo De Jesus Constanzos;
From Natural Causes (not so apparent manner of death).
- 1991: A Maturational Arrest (in the grief reaction),
The Hemlock Debate, (assisted suicide, euthanasia)
If At First You Don't Succeed...; (multiple SGW suicide).
